

A new way to sign in! Soon the way you sign into Portal will change.

➤ **What is HealthSafe ID®?**

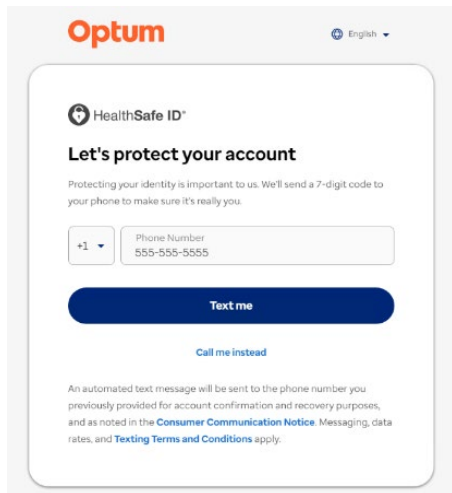

HealthSafe ID® is the updated, secure way to sign in to your HealthSafe ID®accounts. It lets you choose one username and one password to access nearly all your health benefits information.

➤ **How does HealthSafe ID® Registration Work?**

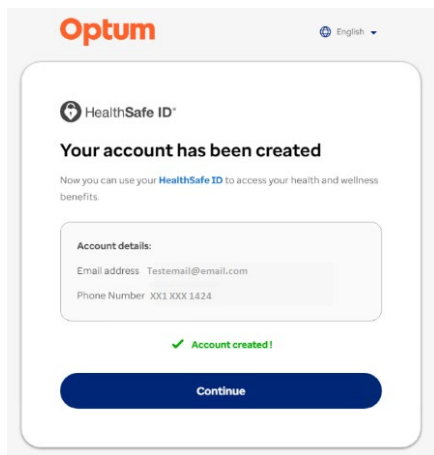

You will need a phone number to Register HealthSafe ID®. When you register, we send a passcode to your phone number to confirm your identity.

On providing the passcode, your login will be authenticated, and you can set up your HealthSafe ID® account. You will be prompted to select a password.

Once you have selected your password, another passcode will be sent to confirm your identity.

After you have entered the passcode, you will have successfully created your HealthSafe ID® account. Hit continue to log into your account.

If you have any questions or experience difficulties, please call 877-664-5514.
